

## OUTLINE

### Hemodynamics

- Do you need a Swan-Ganz?
- Preload/Afterload
- Contractility
- Cardiac output
- Cardiac index
- Mean arterial pressure

### Respiratory Diagnoses

- Will the real cause of SOB please stand up: Complicating the respiratory diagnosis
- Clinical presentation, signs/symptoms, interventions, management of:
  - Pneumonia
  - Asthma
  - COPD
  - Acute Respiratory Distress Syndrome
  - Pulmonary embolism (Air, Fat, Amniotic)
- Anaphylaxis
- Acute Respiratory Failure
- Pleural effusions
- Pneumothorax
- Foreign body aspiration

### Respiratory Interventions and Medications

- Pharmacology
- ABGs: Simplifying the numbers
- Chest Tubes: Indications, set-up, troubleshooting
- Capnography: Interpreting what it tells us
- Ventilation and NPPV basics: Modes of ventilation and appropriate uses

### Cardiac Diagnoses

- Bradycardic & tachycardic rhythms: Essentials that you need to know
- Is This Patient Having an MI?
  - Pericarditis
  - Myocarditis
  - Endocarditis
  - Etiology, Clinical Presentation, ECG changes, Treatment
- Aortic Stenosis
- Heart Failure
- Current best practice recommendations
- Long-term prognosis

### Acute Coronary Syndrome

- Unstable Angina
- STEMI
- Non-STEMI
- Differentiating the Three

### Cardiac Interventions and Medications

- Pharmacology
  - Vasopressors vs. Inotropes
  - Ace Inhibitors, Beta blockers
  - Anticoagulants
- Stabilization & Treatment procedures
  - Stents, CABG, LVADS
- What's Trending?
  - Current trending technology
- Case Presentations & Identify Probable Diagnosis

## CARDIAC AND RESPIRATORY COMPLEXITIES

### Quickly Differentiate to Take Rapid Action

You are assessing the patient who just returned from endoscopy following a foreign body removal. The patient is complaining of his throat itching. On assessment, his vital signs are normal, but he appears anxious. Is this normal following the procedure? Do you put him on a cardiac monitor? Should you call a rapid response?

We have all been faced with the clinical dilemma when our patient has rapidly progressing dyspnea, tachypnea, fever, cough, and chest pain. What is happening? Distinguishing between heart failure, pneumonia, and ARDS can be difficult. Did you know that COPD could mask a pulmonary embolism? When your patient is wheezing, do you make the assumption it is asthma? Or could the presentation be caused by heart failure or an allergic reaction?

Attending this conference will provide you with the confidence to recognize early and identify appropriate interventions to prevent further deterioration. We will discuss when non-invasive ventilation devices should - and should not - be used. If you are still struggling with blood gases, don't let blood gases intimidate you! Learn quick and easy ways to interpret ABG results. You will learn from actual patient stories to illustrate the complexities and co-morbidities of cardiac and respiratory diagnoses!

### SPEAKER

**Robin Gilbert, MSN, RN, CEN, CPEN**, has over 25 years' experience in emergency nursing. Robin is both a certified emergency nurse and a certified pediatric emergency nurse. She has experience as an emergency department manager, manager of cardiac & pulmonary rehabilitation, and, currently, the regional manager for staff development at Central Maine Medical Center. In her role, Robin is responsible for application of trends and best practice standards in emergency nursing care.

Additionally, Robin enjoys educating others. She presents on a variety of emergency based topics to healthcare audiences across the nation, instructs the NCLEX review class for Kaplan and tutors nursing students online for a local college. Robin also holds instructor status in the Trauma Nurse Core Course, Emergency Nurse Pediatric Course, ACLS, and PALS. She has been an item writer for the Board Certification of Emergency Nursing and a former Chairperson. Robin is an active member of the Emergency Nurses Association, the American Nurses Association, Society of Critical Care Medicine, and is a reviewer for the ANCC's Pathway to Excellence.

#### Speaker Disclosures:

Financial: Robin Gilbert has an employment relationship with Central Maine Medical Center and Rumford Hospital. She receives a speaking honorarium from PESI, Inc.

Non-financial: Robin Gilbert has no relevant non-financial relationship to disclose.

### OBJECTIVES

- Review the nursing assessment for patients with airway or ventilatory problems.
- Describe the pathophysiologic changes that occur causing the signs and symptoms associated with airway or ventilatory problems.
- Select appropriate interventions for airway or ventilatory problems.
- Differentiate between ventilator modes and the use of NPPV.
- Evaluate appropriate treatment strategies for high-risk ECG findings.
- Plan for emerging treatments in heart failure.
- Analyze management options for acute coronary syndromes.
- Describe the diagnosis, evaluation, and management of inflammatory cardiac disease.

### Have a seminar idea? A manuscript to publish?

The nation's top speakers and authors contact PESI HealthCare first. If you are interested in becoming a speaker, or have a new topic idea, please contact Missy Cork at [mcork@pesi.com](mailto:mcork@pesi.com) or call (715) 855-6366.

#### Clinical Nursing Assessment Skills Pocket Guide

By Cyndi Zarbano, RN, BSN, CCRN, CMSRN, CLNC, NLCP

This full-color pocket guide provides portable, quick access to essential reference information on neurological, cardiac and pulmonary assessments. Filled with descriptive images. (2013)

#### Laboratory Tests Made Easy: A Plain English Approach, Second Edition

By Mikel Rothenberg, MD & Sean G. Smith, BSN, CCRN

This best-selling reference book provides both the "need to know" information, as well as the more in-depth "nice to know" details relevant to your patient's lab results. In this Second Edition you will find plain English summaries, pertinent case studies, and easy to read diagrams and tables. This fully revised and updated book puts the information right at the fingertips of any medical professional at any experience level. Laboratory Tests Made Easy is a must for your professional library. (2014)

Visit our Online Product Store: [www.pesihealthcare.com/store](http://www.pesihealthcare.com/store)

#### Live Seminar Schedule

- 7:30** Registration/Morning Coffee & Tea
- 8:00** Program begins
- 11:50-1:00** Lunch (*on your own*)
- 4:00** Program ends

*10-15 minute mid-morning and mid-afternoon breaks*

For locations and maps, go to [www.pesihealthcare.com](http://www.pesihealthcare.com), find your event, and click on the seminar

#### Seminar on CD or DVD Package

You can purchase a self-study package on the subject. You will receive a set of CDs or DVDs that include a digital copy of the seminar manual and post-test/evaluation. You and your colleagues can receive CE hours for a nominal fee. To determine if homestudy credits are available for your profession go to [www.pesihealthcare.com](http://www.pesihealthcare.com) or call 800-844-8260. Check with your licensing board to verify acceptance of self-study credits for license renewal. Order today by using the order form on this brochure or by calling 800-844-8260.

#### Live Seminar Continuing Education Credit Information

**Credits listed below are for full attendance at the live event only.** Certificates of Completion are distributed at the conclusion of the live seminar for those who register prior to the event date and attend the full day. A letter of attendance will be issued to participants who register at the event, arrive late, or leave early. For those who registered day of (walk-ins), and are in full attendance, a certificate of completion for full CE credit will be sent within 30 days following the event. For those in partial attendance (arrived late or left early), an adjusted certificate of completion reflecting partial credit will be issued within 30 days (if your board allows). Please see "live seminar schedule" for full attendance start and end times. NOTE: Boards do not allow credit for breaks or lunch.

If your profession is not listed, please contact your licensing board to determine your continuing education requirements and check for reciprocal approval. For other credit inquiries not specified below, or questions on home study credit availability, please contact [cepsi@pesi.com](mailto:cepsi@pesi.com) or 800-844-8260 before the event.

Materials that are included in this course may include interventions and modalities that are beyond the authorized practice of mental health professionals. As a licensed professional, you are responsible for reviewing the scope of practice, including activities that are defined in law as beyond the boundaries of practice in accordance with and in compliance with your professions standards.

PESI, Inc. offers continuing education programs and products under the brand names PESI, PESI Healthcare, PESI Rehab and Psychotherapy Networker.

**RESPIRATORY CARE PRACTITIONERS:** Application has been made to the American Association for Respiratory Care (AARC) for continuing education contact hours for respiratory therapists. Full attendance is required to receive a certificate of successful completion. Please bring your AARC Member Number to the program.

**NURSES/NURSE PRACTITIONER/CLINICAL NURSE SPECIALISTS:** PESI, Inc. is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

Nurses in full attendance will earn 6.3 contact hours. PARTIAL CONTACT HOURS WILL BE AWARDED FOR PARTIAL ATTENDANCE.

**NURSE PRACTITIONERS:** This program offers 120 instructional minutes of pharmacology content which is designed to qualify for 2.0 contact hours toward your pharmacology requirement to receive credit. It is your responsibility to submit your certificate of successful completion and a copy of the seminar brochure to your licensing board.

**OTHER PROFESSIONS:** This activity qualifies for 380 minutes of instructional content as required by many national, state and local licensing boards and professional organizations. Save your course outline and certificate of completion, and contact your own board or organization for specific requirements.
