

OUTLINE

Wound Bed Tissue Types: Presentation & Treatment

- Epithelial Tissue
- Granulation Tissue
 - Healthy Granulation
 - Hypergranulation
- Necrotic - When and how to debride
 - Slough - Moist, devitalized tissue
 - Eschar - Dry devitalized tissue

Wound Margin Issues and Strategies

- Epiboly - Rolled edges
- Hyperkeratotic - Dry, calloused edges
- Undermined - Trauma or drying of wound bed
- Peri-wound signs of possible infection
 - Erythema (redness) and heat
 - Induration (hardened tissue)
 - Fluctuance (mushy tissue)

Characteristics of Common Wounds

- Phases of healing: Normal vs. chronic
- Etiology, location, characteristics
 - Arterial insufficiency
 - Venous insufficiency
 - Diabetic/Neuropathic
 - Pressure ulcers - Demystifying the stages

HANDS-ON CLINICAL LAB

- Using the latest in wound care model technology, participate in skill-based exercises in:
- Wound staging
 - Tissue type identification
 - Proper measuring techniques
 - Tunneling/Undermining
 - Wound care product awareness and application

Strategies to Select Dressings for:

- Dry/Minimally draining wounds
 - Hydrogel
 - Oil emulsion dressing
 - Moistened gelling fiber
 - Hydrocolloid
- Moderate draining wounds
 - Alginate or gelling fiber
 - Glycerin based hydrogel
 - Traditional foam
- Heavy/copious drainage
 - Negative pressure wound therapy
 - Moisture responsive dressings
 - Super absorbent dressings

Strategies for Decreasing Bioburden

- Best cleansing
 - Use of surfactants
 - A new look at antiseptic cleansers
 - Breaking biofilm
- Antiseptic dressings
 - Silver
 - Iodine complex
 - Hyperosmolar (sugar, salt, honey)
 - Methylene blue, gentian violet
 - Dressings that trap exudate trap germs also
 - Dressings that attract bacteria ionically

Tissue Based Products

- Autograft
- Allograft
 - Cryopreserved
 - Grown in vivo
 - Acellular
- Xenograft
 - Bovine
 - Porcine
 - Equine
 - Marine

Have a seminar idea? A manuscript to publish? The nation's top speakers and authors contact PESI HealthCare first. If you are interested in becoming a speaker, or have a new topic idea, please contact Missy Cork at mcork@pesi.com or call (715) 855-6366.

THE ULTIMATE HANDS-ON WOUND CARE CLINICAL LAB

In healthcare facilities across the country, billions of dollars are being spent annually on skin care and wound management. You are on the front lines of providing care to patients with a variety of skin and wound conditions, and play a critical role in patient outcomes and your facility's bottom line. **There is no better way to learn new problem solving skills than through this Hands-On Clinical Lab.** Attend this highly interactive seminar and learn wound care assessment skills by DOING!

Wound care educator and consultant, Joan Junkin, MSN, CNS, will teach you new strategies for wound assessment and interventions, using wound care teaching models and sample products. The Hands-On Clinical Lab will add a live, hands-on component to learning that will enhance your retention of skills and techniques covered. Practice identification, measurement and the applications of various products on realistic wound care models. These models provide a life-like simulation to allow for improved assessment and treatment of a wide variety of wound care presentations, including all stages of pressure ulcers, tissue types, undermining, tunneling, fissure and surgical dehiscence. Take your understanding of wound care to the next level with this hands-on, interactive clinical lab. Register today – space is limited!

SPEAKER

Joan Junkin, MSN, CNS, brings 25 years as a wound clinician and educator, including 10 years building the outpatient and inpatient wound program in a 500-bed hospital. As owner of The Healing Touch, Inc., Joan now provides wound care consulting services to healthcare organizations and shares her expertise as a requested presenter both nationally and internationally. Joan's seminars are a combination of practical knowledge gleaned from her extensive experience and are always backed up by the latest research and guidelines.

Joan has been President of the Nebraska Wound, Ostomy Continence Nurses (WOCN™) Society and chaired the WOCN™ national committee to accredit WOCN™ education programs. She is on the speakers bureau for the Advanced Wound Care Society. Articles she has authored have been published in several peer reviewed journals. She has been invited faculty for regional and national WOCN™ conferences and SAWC wound conferences.

Disclosures:

Financial: Joan Junkin is the Owner of The Healing Touch, Inc. She is on the speaker's bureau and has been a consultant for Sage Products Inc; which is now a part of Stryker. Ms. Junkin receives a speaking honorarium from PESI, Inc.

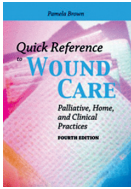

Non-financial: Joan Junkin has no relevant non-financial relationship to disclose.

OBJECTIVES

1. Distinguish between the various tissue types found in chronic wounds.
2. Identify the actual cause of the wound to be able to implement the best healing/prevention strategies for the patient.
3. Compare the most appropriate terms used to document peri-wound status.
4. Demonstrate accurate measurement and documentation of wounds.
5. Choose the best dressing type based on the specific wound presentation.
6. Plan for wound healing as you practice new hands-on skills.

SAVE BY INCLUDING THESE PRODUCTS WITH SEMINAR REGISTRATION!

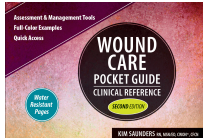

Quick Reference to Wound Care: Palliative, Home, and Clinical Practices, Fourth Edition

By Pamela Brown, BSN, Med, CWCN, COCN

This reference book provides healthcare professionals with the essentials necessary to deliver the best wound care in a cost-effective manner. Updated to reflect current wound care treatments and products, it includes wound assessment, the healing process, the basics of wound management, topical treatments, and management of the major wound types.

Wound Care Pocket Guide: Clinical Reference, Second Edition

By Kim Saunders, MSN/ED, RN, CWON®, CFCN

Now in its second edition, the *Wound Care Pocket Guide: Clinical Reference* is the most up-to-date resource to provide optimal wound care treatment. Color photos and graphs detailed with guide points for assessing and trouble shooting. Waterproof pages, color-coded chapters and a sturdy metal ring provides quick access in any environment.
